Christmas Trees

Noble Fir

The strong defined branches of a Noble Fir, coupled with their blue-green hue, give these trees a full and layered appearance. The rigid branches of the Noble Fir hold up heavy ornaments, and their subtle evergreen scent brings the feeling of Christmas home.

Nordmann Fir

Nordmann Fir Christmas Trees have dark green needles with a subtle light-blue underside which accents the appearance of their layered branches. The needles have a waxy cuticle which prevents water loss and makes them the longest lasting cut Christmas tree. The Nordmann Fir also has a minimal fragrance making it a great tree for people with allergies.
